

FOR YOUR INFORMATION:

In Christian theology, the “planning” for the birth of Christ is considered part of a divine plan that spans the entirety of human history from the beginning, involving approximately 4,000 years of preparation & prophecy from the creation of the world to his actual birth.

FIRST PROPHECY: The initial messianic prophecy is often traced back to Genesis 3:15, spoken to Adam and Eve, which occurred near the time of creation, around 4,000 years before Christ’s birth, according to traditional biblical chronology.

MAJOR PROPHETS: Specific prophecies detailing the circumstances of Jesus’s birth were made by various Prophets centuries before the event. For example, Isaiah and Micah both prophesied specific details, such as The virgin birth and the birthplace being Bethlehem, approximately 600 – 700 years in advance.

FULLNESS OF TIME: The Apostle Paul states in Galatians 4:4 that “when the fullness of the time had come, God sent forth His Son”. Theological interpretation holds that God orchestrated global political, linguistic, and infrastructural conditions during the intervening centuries (including a 400-year period of biblical “silence:betewen the Old & New Testamants) to ensure the gospel could spread effectively after Christ’s life, death, and resurrection.
